

¡Qué rico!

– A delicacy from Tellus Vision

Format: 6 short programmes (x5 minutes).

Target group: 12-19 years old, adults.

Extra material: Teacher's guide including the recipes, pictures, TV rights, Internet rights, your logotype in the beginning of each series, your own program title.

This is a new series of programmes where you follow six teenagers in their kitchens where they make their favourite snack.

The teens have been filmed, in a dogma inspired way, when preparing the snack. The scenes crazily swing to lively hard rock music and include mishaps and blunders.

Each program, about 5 minutes long, introduces the home region of the teenager and ends with the recipe for the snack.

So, apart from practicing the foreign language in a with-it way, one also gets a certain cultural knowledge and tasty tips for easy-to-make snacks without missing one's tip!

Also available in English, French and German.
